

Serial Interface Module

SIM016-3

- **Extends the fire detection control panel Series BC016 by an INFO bus interface**
- **Adjustable baud rate**
- **Monitoring of the data line**
- **Connection of fire brigade control units, remote tableaus, etc.**

Description

The Serial Interface Module SIM016-3 provides fire detection control panels Series BC016 with an INFO bus interface. Fire brigade control units or remote tableaus, for example, can be connected to this interface. The

transfer rate can also be adjusted, if required. The SIM016-3 module occupies the slot for serial interfaces in fire detection control panels Series BC016.

Specifications

Current consumption at 24V	typ. 22mA
Interface	20mA current loop
Connection type	Screw terminals
Ambient temperature	-5°C to +50°C
Dimensions L x W x H	70 x 45 x 20 (mm)
Weight	50g
Part No.	210112
Order name	Serial Interface Module SIM016-3
